SKILLS SUMMARY

Languages:	Python, C, C++,
Frameworks & Libraries:	HTML, CSS, React,
Databases:	MySQL, MongoDB
Cloud / DevOps:	Git, GitHub
Developer Tools:	VS Code, Jupyter Notebook
Core Subjects:	Discrete Mathematics, Data Structure & Algorithms, Computer Networks
Soft Skills:	Time Management, Technical Communication, Leadership

INTERNSHIP

Prompt Engineering Intern— Infosys Certificate	May 2026 – June 2026
- Designed and refined AI prompts for different tasks, improving the clarity and relevance of generated responses. - Experimented with prompt structuring, role-based prompting, and iterative testing to achieve more consistent AI outputs.	

PROJECTS

Radar-Based Target Detection & Automated Launcher GitHub Live	Jan 2026– March 2026
- Designed and developed a rotating radar-based target detection system capable of scanning an area from a fixed surface. - Integrated sensors with a rotating mechanism to detect and track targets based on their position. - Implemented real-time target detection and directional response using embedded electronics and control logic. <i>Tech Stack: Arduino, Ultrasonic Sensor, Servo Motor, Embedded C/C++, Arduino IDE</i>	
Mini E-Commerce Website — Online shopping platform GitHub Live	Oct 2025 – Dec 2025
- Developed a basic website for browsing products and managing a shopping cart. - Implemented product listing, cart management, and basic user interaction features. - Designed a responsive interface to provide a simple online shopping experience. <i>Tech Stack: VS Code, CSS, HTML</i>	

TRAINING

C++ & Data Structures Training — Programming Fundamentals Certificate	June 2026 – July 2026
- Learned C++ fundamentals including variables, functions, arrays, strings, pointers, and OOP basics. - Practiced basic problem-solving and Data Structures & Algorithms concepts through programming exercises. <i>Tech Stack: C++, VS Code</i>	

CERTIFICATIONS / CERTIFICATES

Oracle Cloud Infrastructure 2025 Certified AI Foundation Associate Oracle	July 2026
Programming Fundamentals using Python - Part 1 Infosys	June 2026
Programming Fundamentals using Python - Part 2 Infosys	June 2026
Computer Programming Certification NeoColab	May 2026

ACHIEVEMENTS

Secured 7th rank among 500+ participants as part of a team in a Cybersecurity Challenge and gained hands-on exposure to cryptography, hacking and cyber-defence through a CTF challenge.	Oct 2025
--	----------

EXTRACURRICULAR ACTIVITIES

India AI Impact Summit 2026 — Attendee	Feb 2026
Explored developments in Artificial Intelligence, technology innovation, and the future of AI-driven solutions.	

EDUCATION

Lovely Professional University	Jalandhar, Punjab
Computer Science and Engineering — CGPA: 7.85	Aug 2025 – Present
Himalayan International School	Patna, Bihar
12 th with PCM — Percentage: 76	June 2023 – May 2025
